

You are cordially invited for the **2022 EDGE Symposium and Cyber2Secure American Manufacturing and Critical Infrastructure Summit** at GE Research in Niskayuna, NY on **September 19-22, 2022**.

September 21 - 22 | 2022

The **Cyber2Secure American Manufacturing and Critical Infrastructure Summit** will bring together CyManII leadership, key federal agencies and top industry experts, leading the latest developments in cybersecurity to safeguard and protect our nation's critical infrastructure and industry sectors. Organized by CyManII, in collaboration with GE Research, the Cyber2Secure Summit will provide attendees with a **unique opportunity to engage directly with subject matter experts to discuss CyManII solutions that can help strengthen and protect our nation's supply chains**.

September 19 - 20 | 2022

The **GE Edge Symposium** combines three symposia —Edge & Controls, AI, and Robotics— into one exciting event. The two-day program will feature **keynote talks, workshops, technical sessions, and live demonstrations, highlighting the latest research and developments in the areas of 5G, AI & Machine Learning, Controls & Optimization, Cybersecurity, Edge Computing, High Assurance Systems, and Robotics**. Network with luminaries from key government agencies, industry customers, and technology partners, and discover cutting-edge advancements in the energy, digital, aviation, and healthcare fields.

Early Bird Registration August 1.
